HALF OF LOAN IN FIVE DAYS

Nearly a Billion a Day Must Be Sold to Make Good

ST. LOUIS DISTRICT OFFICIALLY AHEAD South Newbury.

But Minneapolis Reports Indicated Earliest Oversubscription

Washington, D. C., Oct. 15 .- The declaration of President Wilson that "relaxation now, hesitation now, would mean sight," and the reply of the president to the peace proposals of Germany were expected to act as spur to workers in the campaign for the fourth Liberty Nearly half the loan's \$6,000,000,-000 total remained to-day to be subscribed and five days of the campaign remained. Officials emphasized that success can only be achieved by the most strenuous efforts.

Subscriptions to the loan as reported by the twelve reserve banks last night totalled \$2,789,410,950. Unreported subscriptions to the close of business last night were estimated as swelling the total to approximately \$3,000,000,000. With such a showing bond sales for the next five days must be at a rate of near-

ly a billion dollars a day.
While the St. Louis district was lead ing in percentage of quota raised with per cent, reports from the Minneapolis district early to-day indicated that that district had subscribed its allotment and would be the first to be reported officially over the top. The Atlanta and Philadelphia districts to-day were the lowest, each with 35 per cent of its quota raised.

How Our Advertising Can Serve

The common idea is that advertisements are run only to urge people to buy. That may have been true in the past, although we have always had a different idea about it.

However, this fall, there's a bigger function for advertising: to urge anyone to buy just for the sake of "selling something" is all wrong.

> We believe we can render a service in these talks to you: that we can show men how to save on clothes; and we are going to try to keep everything we do up to that high level.
